About this range

Ramadan lanterns (فانوس) are the most recognisable symbol of the month — hung in streets, shops and homes from the first night. The range covers hanging lanterns, table lanterns and battery LED versions in metal, glass and acrylic; LED models run on replaceable batteries, which avoids mains wiring and simplifies retail display. Our best-selling lines are 641253, 641334 and 641339, and most of this business goes to importers in the Middle East. August is the peak month: production runs through the autumn, the containers leave before the end of the year and the goods are on shelf in January, ahead of Ramadan. The request we hear most in this category is a lower price. Where we put the effort instead is packaging. A lantern has to survive the journey and then sell from a shelf or a display stand, so we quote the same item two ways — plain export packing and retail-ready packing — and you decide which one is worth it in your market.
